

Evacuation chair

Stair chairs.

The Stryker Evacuation Chair is essential for the evacuation of disabled or injured persons weighing up to 227 kg, from multilevel facilities in emergency situations. The patented Stair-TREAD tracks allow easy evacuation down stairs by a single operator, for passengers weighing up to 90.7 kg. The extendable handle allows the operator to have a forward-facing, upright posture for balance, line-of-sight and ergonomic safety. Foot end lift handles also extend, allowing two people to lift an evacuee over obstacles or up stairs.

Key features

- Innovative Stair-TREAD system allows easily controlled stair descent
- Easy set-up and instruction pictograms on seatback
- Colour-coded controls for faster operation
- Extendable head end and foot end lift handles for ergonomic lifting
- Extendable upper-control handle for upright operator posture and unobstructed line of sight
- Positive action locking mechanism for passenger security
- Dual wheel locks for more secure transfers
- Oversized rear wheels with sealed bearings for smoother transports
- Compact storage size conserves space in corridors and closets
- Lightweight, rugged aluminum construction for low effort transports
- Power washable for easy cleaning
- Grease-free maintenance for ease of care
- Restraints¹ with Fastex buckles for passenger security
- Molded hand grips fit hands for better ergonomics
- Head support allows evacuation of passengers with compromised head control
- Two-piece molded ABS seat for greater passenger comfort.

Optional features

- In-service video (6253-001-167)
- Aggressive Stair-TREAD belt*

*The Aggressive Stair-TREAD Belt is designed to improve the grip of the Stair-TREAD system on steps that have a smooth surface with a rounded edge.

Warranty

- Two year
